James Bond Island

with greater splendor

This is the place where the film "The Man with the Golden Gun" was made in 1974. It is a small bay with a huge rock cut into two from the top to the bottom. In the middle of the cove, there is a giant sea stack. The national park unit is located here.

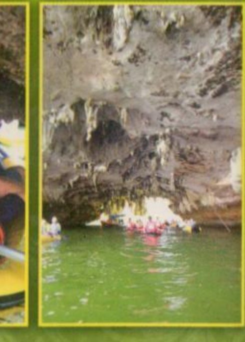

Pan-yi Village

This small island has a picturesque village, which rests precariously on small pilings and extends out across the water, cut off from the mainland. Souvenir shops and seafood restaurants are available for visitors.

TALU Island

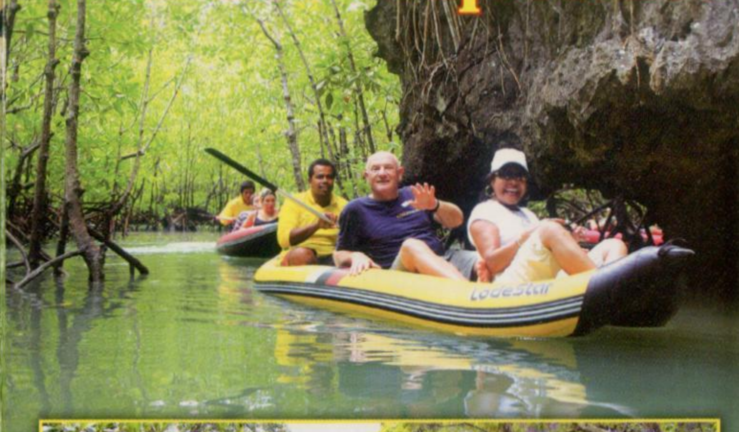

This cave has beautiful stalagmites and stalactites. The long tail boat can go through to another side of the cave. And there you will see "Forest of the sea" - mangrove forest and many small tidal sea caves.

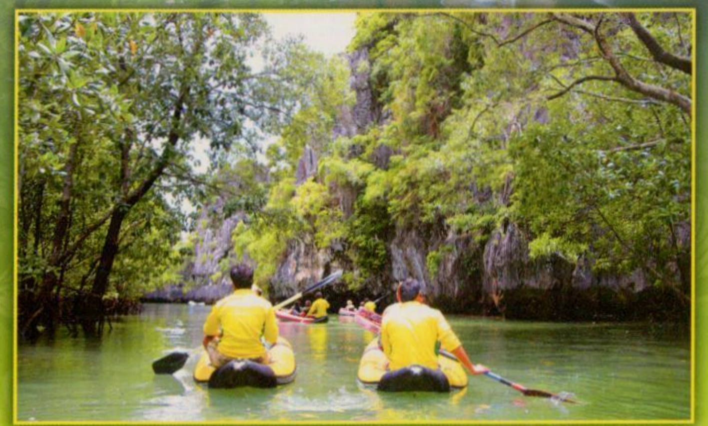

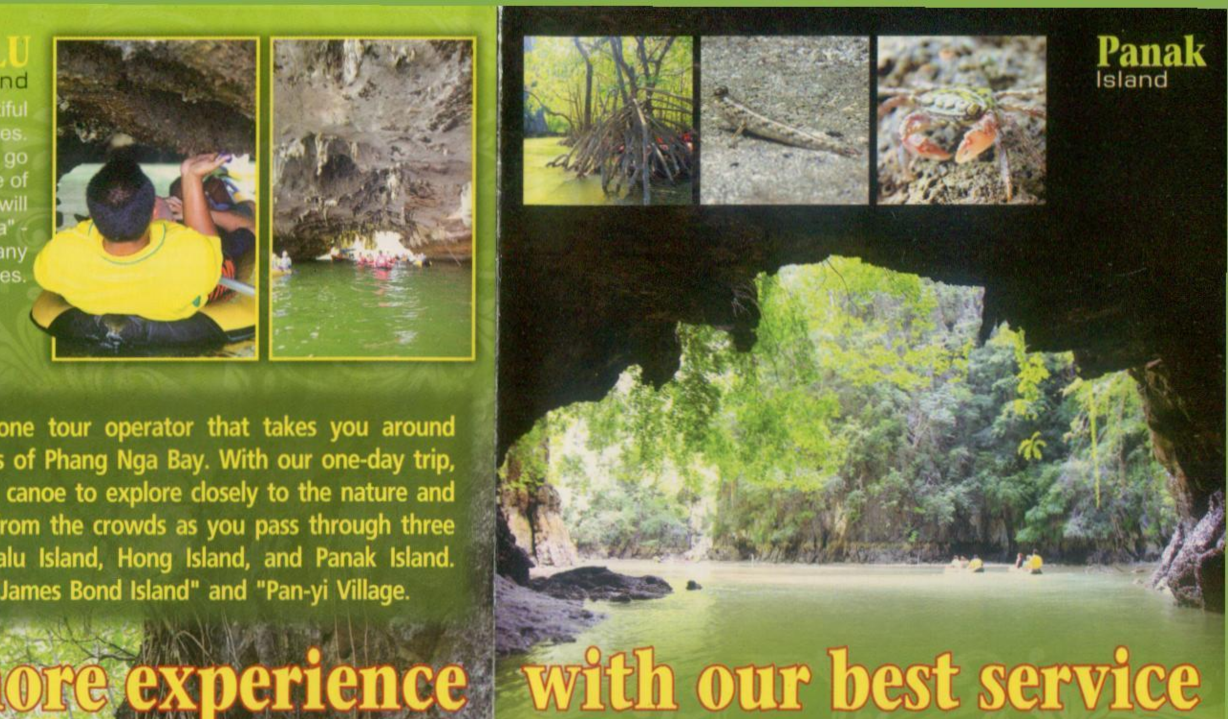

We are the only one tour operator that takes you around almost all the areas of Phang Nga Bay. With our one-day trip, you will travel in a canoe to explore closely to the nature and you will be away from the crowds as you pass through three beautiful places: Talu Island, Hong Island, and Panak Island. You will also visit "James Bond Island" and "Pan-yi Village.

with more experience

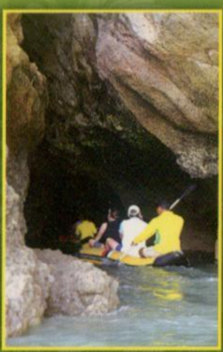

Panak Island

with our best service

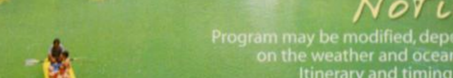

The biggest island for sea canoe is chosen by TAT to be one of the unseen destinations. It's a large island with plenty of caves and lagoons hidden inside. The most famous cave is "Bat Cave", a 130 meters long 5 meters wide dark cave.

Notice

Program may be modified, depending on the weather and ocean tides. Itinerary and timing above are given for information.
